
WHO WOULD BE IMPACTED BY IP13?

Spoiler Alert: Every Oregonian.

SMALL FAMILY FARMS & SATURDAY MARKETS

They go together like peas & carrots, which is all you'd be able to buy because locally raised meat would be outlawed.

HOMEOWNERS & RESTAURANTS

Got a squirrel in your attic? Gophers in your garden? Mice in your food storage? Pest control would be criminalized, regardless of public health standards.

RESEARCHERS & TEACHERS

Lawful scientific research and teaching involving animals would be criminalized. Want to become a vet or study oceanography? Sorry, can't do that anymore.

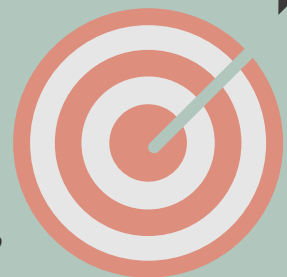

PET OWNERS

Safe & effective training techniques would be considered abuse and certain breeds would die out due to criminalization of breeding practices.

SELF-SUFFICIENT PEOPLE

Want to be less reliant on the national food network by raising livestock, hunting, fishing, or trapping? Nope. That kind of self-sufficiency would make you a criminal.

THE LIST GOES ON AND ON...

- Farmers
- Ranchers
- Golf Courses
- Wildlife Biologists
- Foodies
- Sporting Supply Stores
- Commercial Fishermen
- Tourism-Based Economies
- Food Processors
- ...and you!
