All Hands All Brands for Public Lands is hosting a 3rd annual campout and work party in the Ochocos. This year Backcountry Hunters and Anglers is the lead brand, so you will find registration on their site. The main project day is Saturday, June 18, but several members begin arriving Monday for preparation, guzzler maintenance and checking past projects, along with fishing, sage rat shooting and relaxing. Our primary project will be to construct two 4-strand wire fences around aspen stands near Big Summit Prairie for a total of about a 1.25-mile fence, along with a small buck and pole project around a .25-acre stand. We're planning a potluck social Saturday night, free raffle, archery shoot and music.

What to bring: T Post pounders, gloves, hydration, tools for attaching wire clips, 3-pound hammer, cordless drills for buck and pole build.
