A big THANK YOU to Katie Murphy from Beckel Canvas Products for being our guest speaker for our February Chapter meeting. Beckel Canvas Products has

been around since 1964 when Bob Beckel started the company. Bob has taken the Chinook term, “Eena” which means the beaver who builds the best lodge to heart and the business has always strived to create a traditional canvas tent, made of durable materials that will last for 30-40 years if you do some simple maintenance steps. They honor the tradition of creating a quality, durable, customizable shelter that you and your family can make memories in for generations. They make their products one at a time in the USA by their small team of craftspersons.

Customer service has always been a priority and while they have a website, they really like to talk to you and get a picture of what you want and customize it to your specifications. Katie has continued on with those traditions since she bought the company about three years ago. It is a small operation with about 4 people and they make everything in their Milwaukee shop. They use the finest 10 oz marine finish army duck, making them extremely water repellent and mildew resistant. You have a lot of options and nearly everything is customizable, just ask them. They repair their products stitching for free, you just have to pay shipping to get it there. They offer many accessories, like floor tarps, fly tarps, porches, screen fronts, smaller lighter weight tents for packing in. Tents with internal steel or aluminum frames or they can give you the option to purchase your own frame but provide the connectors that you need. They do repair canvas and other canvas tents for a price. They added a luggage line years ago and make canvas bags, they also do horse packing gear and almost anything related to creating canvas you can always ask them if they can make it. They carry accessories for your tents, camping, hunting, etc. including a line of stoves to keep you nice and warm while you are out enjoying your shelter.

One tip Katie says is to never put your canvas away while it is wet. Make sure it is completely dry first or it will mold. She says not to treat your canvas tent with any of the treatments out there until it only has a few years of life left in it. In the 50 plus years of business, they have never seen any product that actually helps it maintain the life of the canvas longer and in fact most make the canvas deteriorate quicker.

You can find Beckel Canvas Products on Instagram @beckelcanvas , Facebook at Beckel Canvas Products, the website is www.beckelcanvas.com, you can email them at info@beckelcanvas.com and you can call them at 503-232-3362 .

SHELTERING GENERATIONS SINCE 1964
