MONNER FENCE BUILD COMPLETION – April 18, 2023

Today 10 Bend Chapter members worked with Ochoco National Forest Wildlife Biologists in completing the wildlife fence near Monner Springs. As you recall in March 8 OHA volunteers helped kick off the fence build with USFS. In total a mile of fence was constructed which will keep livestock out of an area that will rehabilitate and provide excellent ground cover for quail and other wildlife.

Last September we began the Monner Springs project by rebuilding a guzzler that had been destroyed by wildfire. 10 members put in 97 hours for the guzzler portion which would equal another \$2,905 in value.

September 2022 guzzler rebuild
